Back in the 60's a lot was going on in our country. The Beatles, the Vietnam War, practically everything you can think of, especially music. It played a very important part of that time. It helped create peace and love, labeling our "now" generation as outlaws in the eyes of America.

A time not to be forgotten. A cosmic time. A time to experience and a time to set out new rules and conquer the world. That's how Dave's Cosmic Subs were created.

A descendant of the 60's, Dave always wanted to create the ultimate sub. A sub that, after tasting it, a person would immediately smile and say "Far Out - Now that's one Great Sub!"
